ACT Monthly

March 2, 2026

February Community ACTions

The ACT board met virtually for two extra meetings in February. First, we held our Strategic Planning meeting to set goals for 2026 and the coming years. Our most recent meeting focused on discussing our first meet-and-greet event in Amblebrook, scheduled for June.

The ACT website is up and running! Visit us at accessiblecaretransport.org and learn more about our organization. There are links to request transports, donate and volunteer, along with lots of information about what we do and who helps make it all happen.

ACT's first volunteer driver, Ken, has completed all training and has hit the road! If you would like to volunteer to drive, you can apply on our website. The more volunteer drivers we have, the more we can reduce costs for transports.

For our February Fill-A-Heart fundraiser, we were able to exceed our goal and raise \$565 which will be used to provide low- or no-cost transports for those with financial challenges. Thank you to our top donors, Don & Barb M., Kathy O. and Susan & Bob S., for having such BIG hearts!

ACT by the Numbers in February

- ★ 189 individual transports
- ★ 17 new clients
- ★ 32 different destinations
- ★ \$1383 in discounts and free transports

ACT-ers Say

After a sudden change in our family member's health required ongoing dialysis treatments, we needed support to manage the schedule and frequency. Accessible Care Transport stepped in immediately. They listened carefully, helped us understand our options, and collaborated with us to develop a transportation plan that met both medical and personal needs. Knowing our loved one would be safe, comfortable, and cared for gave us tremendous peace of mind. Their vehicles are clean, pickups and drop-offs are reliable, and communication is always professional and timely. We are truly grateful to the ACT team!

- Erin L

ACT Experience

Aida came from Puerto Rico 16 years ago to live in Hanover. She loves it here (except for the cold temps)! We came to know Aida through working with Wellspan, helping their patients get to appointments by providing on-time, compassionate and safe transports from their homes in York and Adams Counties to Wellspan medical facilities located in Hanover, Littlestown, Gettysburg, Chambersburg and other areas in South Central PA.

Other medical facilities, such as Cardiovascular Specialists of Hanover, Pennsylvania Cancer Specialists & Research Institute in Gettysburg and Hanover and UPMC Hanover Hospital, often contact us to help arrange transportation for their patients who are unable to drive to get to appointments or after a procedure when they have no family or friends available. They know our drivers are all certified in CPR and first aid and will take special care of their patients during transport. They can count on Accessible Care Transport to be more reliable than ride share services and more accommodating than public transportation.

We were deeply saddened to learn about the passing of Ruth Lawrence. So many of us here at Accessible Care Transport had the privilege of working alongside her at Compassion Transport. We are incredibly grateful for the opportunities she provided us, as she was instrumental in introducing many of us to the non-emergency medical transport industry. Her compassion and deep caring of others will always be remembered. Rest in peace.

Future ACTS

Our March fundraiser is **MARCHing for Vets**, where all proceeds will be used to give back to our vets with low- or no-cost transportation to their medical appointments. On March 9th some of our board members are meeting with Kevin Smyers, York County's Director of Veterans Affairs, to tell him more about our service and learn how we can partner to help veterans in our community.

Be on the lookout for us in the community! We are working behind the scenes for upcoming events. If you would like to volunteer to be on our fundraising or marketing committees, please contact us (see contact info above). We are working on our big fundraiser coming this fall, and we need plenty of volunteers to help with the event!

Contact us at least 24 hours in advance to schedule your transport.
